

## UPDATE

March 28th 2020

As we continue to monitor the ongoing Covid19 crisis, The Administration of The Seasons has decided to further alter Dining and Activities in our community. These preventative measures are being enacted in order to protect the health and well being of our Residents and Staff.

At this time no one in our community has shown any symptoms.

Beginning Sunday March 29th, 2020

\*Residents on The Seasons side of our community will be served meals in their apartments and no group activities will be scheduled at this time.

\*Grandview Gardens residents will be served meals at alternate times to insure extra distance between individuals. Some activities will occur on a modified schedule for our memory care residents.

Thank you for your continued support. We will continue to provide updates as they become available.
