

Happy Easter!!

We hope this update finds you well and enjoying a Beautiful Easter Sunday at an appropriate distance! We would like to thank you for all the positive comments we are receiving from our Seasons Family and Friends!

We are remaining in constant contact with The RI department of Health and are following directives as they are made. Please understand that what we say is OK one day may change on the next day. We appreciate that everyone is working with us to keep Residents and Staff safe by following directions as they are given.

*Update from the Wellness Director:

We would like to keep you up to date on the wellness initiatives here at The Seasons. We are following all direction and guidance from the Department of Health which includes all employees wearing masks when in contact with your loved ones and each other. We also have asked residents to wear masks and have provided each resident with a cloth mask. We are maintaining social distancing from each other and we are screening all staff when coming into the building prior to a shift, including monitoring temperatures. We appreciate your support and kind words when you call. We will continue to follow the guidelines of the Department of Health and do our best to keep your loved ones, and us healthy through this difficult time.

*Please continue to follow the guidelines for dropping off essential items for your loved ones on Tuesdays, Thursdays and Saturdays between 10am and 3pm. Please remember that **everything** that is taken into the building must be quarantined for at least 24 hours.

*The Activity department is working to set up Zoom calls with families, please look for information in the coming week.

*Please take a peek at our website www.TheSeasons.org, there are updates posted in conjunction with emails. Click on the culinary tab for some fun uplifting pictures of how the staff is making our residents smile.

A message from Our Administrator:

Dear Families and Friends,

The Celebration of Easter and spring historically symbolize new life and hope for the future. This year we find ourselves distanced from loved ones and friends and have a feeling of uncertainty that we do not normally associate with this season.

Each day our faith and strength to remain optimistic can be challenged. When I speak to Residents here at The Seasons, I am reminded of the sacrifices, hardships and perseverance that they have experienced throughout their lifetimes. I am encouraged that our Residents recognize that uncertain times are not forever, sacrifices are at times necessary and caring for your neighbor is essential. We must find strength in each other, focus on our common goal of keeping everyone healthy and have faith that by working together we will persevere.

As we celebrate Easter and spring, we remember the lessons of hope, strength and belief in a better future that our seniors teach us every day. Please be assured that the continued goal of everyone at The Seasons is to maintain the well-being and safety of our Residents. Our Seniors are our role models and they have given us the gift of knowing that there will be a brighter tomorrow. We look forward to that time when we can all celebrate and be together again.

Laurie Ann
