

OUR FRESH FOOD PLEDGE

We create authentic food from scratch, using fresh, responsibly sourced, seasonal ingredients and culinary creativity. We are guided by environmentally responsible practices and avoid additives, chemicals and preservatives.

We believe each meal represents an opportunity to create something special, so all of our Team Members sign our Fresh Food Pledge - reflecting our continued commitment to culinary integrity.

You'll never find pre-packaged meals, trans fats, or food from a can on your plate. In every Unidine kitchen you'll find seasoned chefs crafting memorable dining experiences with only the freshest ingredients, scratch cooking, and culinary creativity. The seasonality of our menus is another demonstration of our Pledge, providing great flavor and nutrition through the use of fresh, local and regional products and ingredients.
